

How to Find a Health Care Provider Online (U.R.N. Clarity Tool)

United Resource Networks has just made it easier for you to find Clear Legitimate Accurate Reliable Information that is Timely and Yours with U.R.N. CLARITY. This patient referral tool provides you with the information you need to effectively guide your patients to health care providers within U.R.N.'s provider networks.

Accessing the tool

To access the U.R.N. Clarity Tool, simply enter in the URL for URNClient (www.urnclient.com) into the address bar of your internet browser application (i.e., Internet Explorer). After reaching the site, enter your username & password into the fields provided. This information will be validated by security on the site. From the Welcome page, simply click on the **Find a Health Care Provider** menu item.

URNClient Welcome Page

Navigation within U.R.N. CLARITY

U.R.N. CLARITY is organized by U.R.N. product (e.g., Transplant, Cancer, etc.). Each product has a customized tab that when opened, will display search criteria specific to it. To search for a facility, click on a specific product (e.g., Transplant, Cancer, etc.) and select the applicable criteria for your search.

NOTE: Access to U.R.N. products displayed within the U.R.N. CLARITY tool is based on the products purchased by our customers. Please contact your U.R.N. Account Manager at (800) 847-2050 for more information or to purchase additional U.R.N. products and services.

Taking a Closer Look at the Transplant Tab

The TRANSPLANT TAB lets you search for a transplant center by transplant type. The page is split into three distinct sections:

- Select a program type (Blood/Marrow or Solid Organ). For *Blood/Marrow*, an optional drop-down appears enabling you to select a specific diagnosis within the additional filters section of the search window. When selecting *Solid Organ*, you must select a solid organ type from the drop-down provided.
- 2. Select a member type (must select by Adult or Pediatric).
- 3. Select additional filters (optional filters such as Diagnosis, State, Zip Code and Distance in Mileage, as well as Facility Name will help you further refine your search results).

Search Criteria

Required fields within the search pages are marked by **bold black type** and a black asterisk (*) with a blue background.

Simply press the **Search** button and the requested results will be returned.

At the bottom, you have the option to **Search for a U.R.N contracted transplant center**, this can be used to go navigate to a specific center, and does not require additional search criteria.

URN Clarity Search Page

Search Results

The Search Results page displays facilities that match the search criteria entered. The page also displays a map that pinpoints the location of each facility. Located under the search criteria and map is summary data for the facility.

The summary data for the facility will include, at minimum: the **designation** for the facility (COE), the **name** of the facility (Hospital A), **location** (Anytown, MN 12345), **year U.R.N. network contract became effective** (2002), as well as **100-day and 1 year volume and survival** statistical information for each transplant type (e.g., Bone/Marrow; Autologous: 100-Day volume of 50 and survival of 98% and 1 Year volume of 50 with survival of 88%).

Note: If zip code and distance search criteria were entered, the summary data for the facility would also include the **distance in miles** from the center of the zip code you entered.

Search Results are continued on the next page.

The Outcomes Tab contains five links to detailed volume and survival information for all contracted programs. Outcomes information for Blood/Marrow transplant is collected via U.R.N.'s annual qualification survey process. Volume and Survival information for solid transplant programs is provided by UNOS (through the *www.ustransplant.org* site).

URNClarity Outcomes Tab Page

Volume by Age	All transplant program volume by age for each contracted facility.
Volume by Diagnosis	Volume by diagnosis for each program type.
Survival Rates	Volume and survival data for blood/marrow and solid organ transplants for the program. If the volume is zero, then the survival rate is displayed as "–". If no data is available, the cells are blank (empty). Clinical outcomes data for solid organ transplants is obtained from UNOS. Outcomes information for Blood/Marrow transplant programs is obtained from the annual U.R.N. qualification survey.
Length of Stay	Median length of stay for a solid organ transplant. Average length of stay is displayed for Blood/Marrow transplants.
Time to Transplant	Median time to transplant for solid organs.

The Cost Statistics Tab shows the billed and paid cost statistics for the health care provider. Billed and paid charges may be used to estimate costs associated with a future procedure. The following statistics are provided:

- Median: After arranging the cases in order of least to most expensive, the median is the middle dollar value where half of the cases cost less than median and the other half of the cases cost more than the median.
- Average: The total dollars from all cases divided by the total number of cases.
- 95th Percentile: The billed or paid dollar value that 95% of the U.R.N. repriced cases have been less than. Among a large group of cases, this number approximates the cost of an uncommon and unusually high cost transplant.

URNClarity Cost Statistics Tab Page

Other Product tabs - Other U.R.N. products have similar geographical and product specific searches. Each product tab also has custom "Tools and Resources" where you can locate patient and case management information.

Bariatric Resource Services – Search for bariatric centers by state, zip code, facility name, market name and market number, Tax ID and facility type. The search results page displays all facilities satisfying the criteria entered, sorted in alphabetical order. By clicking on the facility name, you can obtain driving directions to/from the facility.

Cancer Resource Services – Search for Cancer Centers of Excellence (COE) network programs by state, zip code or facility name. The search results page displays all facilities satisfying the criteria, sorted in alphabetical order. By clicking on the facility name, you can review facility contract, clinical outcomes and contact information.

Congenital Heart Disease Resource Services – Search for CHD Centers of Excellence (COE) network programs by state, zip code or facility name. The search results page displays all facilities satisfying the criteria entered, sorted in alphabetical order. By clicking on the facility name, you can review facility contract, clinical outcomes, lodging and contact information.

Kidney Resource Services – Search for kidney dialysis centers by state or zip code. Filter results by selecting a program type (different types of dialysis), facility name, chain name or only those dialysis centers that offer after 5 p.m. dialysis. The search results page displays all facilities matching the search criteria ordered by Centers of Excellence (COE) network facilities that are contracted by U.R.N., followed by non-COE Network facilities. Expand your search to include extended network facilities (e.g. IHP) and then non-network (non-contracted) facilities. Compare facilities by selecting the checkboxes and clicking the "Compare centers" button. The resulting comparison page displays outcomes data for all selected facilities. To obtain driving directions to/from the facility, click on the "pinpoint" on the map displayed on the comparison page.
